

The New Schweizer 1-34

**SCHWEIZER
AIRCRAFT CORP.**

ELMIRA, NEW YORK

The latest in the line of Schweizer Sailplanes continues the tradition of quality and reliability that has been the keynote of Schweizer Sailplanes since 1930 when the first of nearly 1,500 sailplanes was built. The 1-34 is the high performance standard class sailplane that is practical for all phases of soaring. It has features not available in many other sailplanes.
